Opposition Voiced to Biscayne Key 'Grab' At Civic Luncheon

Mayor Says Legislators Are Adamant

Meeting With Delegation Is Failure

A report by Mayor Thomas C. Mayes that the city commission had failed to dissuade the Dade County delegation in the state legislature from introducing a bill to take Biscayne Key from the city limits of Coral Gables, brought an echo of protest from Coral Gables Chamber of Commerce members at their weekly luncheon, yesterday.

Mayes stated that the commission had dined with the delegation on Wednesday night "but that about all the satisfaction they received was a good meal." He said the delegation appeared adamant in its purpose to take Biscayne Key from the Gables and give it to Dade County.

The mayor stated that the four majority property owners on the Gables section of Biscayne Key had no desire to be removed from the Gables limits, but that the fact made no impression on the legislators.

The mayor also pointed out that the county will continue to receive county taxes if the key continues to be within the Gables' limits.

The Chamber of Commerce members went on record as being unanimously opposed to the Dade delegation's plan, and voted to prepare a resolution to be forwarded to the delegation should it take steps to introduce such a bill.

Mayes said that there are approximately 15,000 building sites on the Gables' section of the key.

Man Injured When Vehicles Collide

Edling P. Christenson, 24, escaped with a leg cut and minor injuries Tuesday when his car turned over three times after being struck by Hawley Russell, 62, of 44 Alhambra Circle.

Christenson, who was treated at Jackson Memorial hospital for injuries, declared that one of the two children in his car impaired his view of Russell's oncoming vehicle at the intersection at Bird Road and Alhambra Court.

Christenson, who resides at 931 S.W. 4th Street, had the front end of his car smashed, and Russell reported similar damage to his.

Election Victors Named by Elks

Election of Worth Gruelle as Tyler and J. W. Liversedge as Esteemed Lecturing Knight was announced this week by the Coral Gables Elks Lodge.

Andrew T. Healy, newly named Exalted Ruler, headed the list of new officers that was announced in last week's Riviera. The results of balloting on Tyler and Esteemed Lecturing Knight, reached The Riviera office too late for publication.

Lighting of Youth Center Tale of Cooperation

Behind-the-backstory of how the Youth Center is saving approximately \$5500 on wiring for the softball diamond now being lighted was explained this week by directors Betty Ward and Ed Beckman and throws a soft and pleasing light on activities of local business and the Junior Chamber of Commerce.

Original estimates called for over \$5000 for wiring, ditch-digging, materials, transformers, poles, and miscellaneous equipment. JC members Ben Turner and Rod Vestal, the latter an Embroidery employee, prevailed upon Riddle executive John McKay to turn over light poles and master transformer from the old Coliseum for the Youth Center athletic field.

Ed Beckman, working on the theory that local business takes an interest in the activities and

Blount Warns Citizens Of Homestead Deadline

MONDAY LAST DAY TO FILE APPLICATION FOR EXEMPTION

Qualified citizens who have not yet filed applications for homestead, widows and disabled veterans' tax exemptions must do so no later than Monday, T. C. Blount, city tax assessor, warned today.

Blount pointed out that homestead exemptions for both city and county must be filed with County Assessor Newt Lummus in the court house in Miami. Latest figures obtainable from that office reveal that only 50 per cent of the qualified Gables residents have filed for the exemptions. He said, however, that additional applications have no doubt been filed since the report was received that could bring the percentage as high as 75.

Reminder notices were sent to both widows and disabled veterans prior to January 1 and approximately 70 per cent of those notified have complied.

"Both widows and disabled veterans are entitled to a \$500 exemption on real property, providing application is filed," Blount stated. "County and state applications must be filed separately with the county assessor."

Blount also stated that citizens should be reminded of the "citizens statutory exemption," whereby all citizens of the state, owning personal property, but not real estate, are entitled to a \$500 value exemption. This applies to both city and state and county personal property taxes. Returns must be filed each year at both city hall and the Dade County courthouse prior to April 1.

Optimist Chief Speaks Before Local Club

Edwin G. Peters, St. Petersburg, governor of the fourth district of Optimist International was guest of honor at the meeting of the Coral Gables Optimist Club last night at the Ely Cafeteria.

Peters, who came here to attend the meeting, gave club members a resume of Optimist activities in this district. The local club has announced the annual election of officers for next Thursday's meeting.

Nominees reported by the nominating committee include, for president, J. H. Brinson and W. La Foye Garrett; second vice president, L. H. DeWees and O. H. Grundmann; board of governors, Steve C. Raymond, J. H. Brock, Paul H. Brinson, E. E. Galloway, John Justad, George A. Yacek and Walter P. Marshall.

Additional nominations may be made from the floor according to E. D. Rogers, president. The club recently purchased 100 copies of the booklet, "Communist Infiltration in the United States," published by the United States Chamber of Commerce. The booklets have been distributed to the membership.

Lehman Will Head Drive For Hospital

Team Captains Also Named For Gables

Warren Lehman of Coral Gables has accepted a position as major in the \$500,000 building fund campaign which will commence in April to complete the South Florida Children's Hospital.

LEHMAN

The institution, construction of which was halted by the war, is located in Schenley Park, just west of Coral Gables.

Working with Mr. Lehman as team captains are George C. Anderson, Herbert N. Crowder, H. E. Keating, W. R. Smith and P. J. Cesarano.

Organization of workers for the campaign includes eight divisions of workers, four of men and four of women. Each is headed by a vice-chairman, and five majors. Each major heads a section of five teams and each team has a captain and five members. S. A. Shikany is vice-chairman for Mr. Lehman's division.

Name Group To Study Zoning

A Chamber of Commerce appointed committee of eleven will begin to delve into the complexities of the zoning laws south of Bird Road when it meets Monday evening at the office of Arthur Fishman, 1805 Ponce de Leon Blvd.

The committee was named on Tuesday night, following a meeting at the Country Club of Coral Gables, by Charles B. Tutan, Chamber president. It includes Donald Peck, Arthur Fishman, Marian Manley, Douglas Reynolds, George B. Caster, Herbert Brown, William Patterson, Pat Cesarano, John Ravlin, George Penrose and Tutan.

The group was named to make a thorough study of existing zoning in the area, with an eye to correcting any inequalities or instances of incorrect zoning. The last overall zoning study was made in 1937.

The zoning probe was instigated when H. F. Doughty, local real estate broker, told a Chamber of Commerce meeting that some re-vamping of the zoning code was necessary to promote growth of the Riviera section. He stated that in some instances zoning should be lowered, in others raised and in still others, changed as to use restriction.

Campaigns Intensified As Election Day Nears; Three Meetings Slated

Hunt Three In Burglary Of Office

Rodney Miller's Safe Looted Of Fifty Dollars

Gables police declared Wednesday that three men were suspected of robbing and ransacking the office of Rodney Miller at 4220 Ponce de Leon Boulevard last week end.

Miller stated that \$50 in cash and a cigarette lighter valued at \$10 were removed during the night, when the culprits entered the rear window of the building. The thieves, unable to locate the cash immediately, tore the files from the cabinet, and littered the office floor with papers from Miller's desk. A search of the office closet rewarded them with the safe and its contents.

Social Workers Will Inspect Youth Center

Only youth center in Greater Miami to be noticed by the Florida State Conference of Social Workers in its conference in Miami this week will be Coral Gables' own War Memorial center, which has been put on the agenda of social workers for a thorough field trip some time in the today-to-Wednesday convention. Director Ed Beckman will take part in discussions of "Growing Pains in Youth Programs" at the McAllister during the sessions.

Capt. Buchanan Is Subject Of Radio Program

The Pratt Radio Guild presented a 15 minute skit by Mrs. Harvey DuPaul on Wednesday evening at the Pratt General Hospital, over WBAY. The theme of the skit centered around the combat experiences and the life of Capt. Paul Buchanan during his stay at the hospital. Buchanan is the editor of the Prattier, hospital newspaper.

Those who took part in the program were: Sgt. John Touhey, Sgt. Midge Clark, Capt. Virginia Cardwell, Pfc. George Roberts, Cpl. Jack Drucker, T/5 Eddie Zohore, Sgt. John Shultz, and T/5 William Greer.

National Geographic Magazine To Feature Gables Pictures

Coral Gables will be featured with color photographs in a forthcoming issue of the National Geographic Magazine, The Riviera learned today.

Representatives of the magazine are in Coral Gables at present and were taken on a tour of the city, Wednesday, by Franklin Harris, public relations director of the University of Miami and Mrs. Mary T. Moore, executive secretary of the Chamber of Commerce. They intend to start shooting next week.

The picture story will stress the University, the Fairchild Tropical Garden and other color pictures of the community.

The Geographic is one of the oldest and most widely read travel magazines and is noted for its photographic excellence.

Rotarians Will Honor Presidential Nominee

GABLES CLUB TO PLAY HOST AT COUNTRY CLUB LUNCHEON

Nominee for president of Rotary International, S. Kendrick Guernsey, will be guest of honor at the inter-city meeting of the Rotary Clubs of Greater Miami today. The Coral Gables Rotary Club will be host for the occasion, the luncheon being held at 12:15 at the Country Club of Coral Gables.

Guernsey will travel to San Francisco to attend the convention from June 8th to the 12th. He was unanimously chosen as the nominee when the nominating committee met in January. From 12,000 to 15,000 Rotarians from throughout the world are expected to attend the convention.

At present, Guernsey is chairman of the Youth Committee of Rotary International. He is a past president of the Rotary Club in Orlando. He was a charter member of the group. His past record includes the jobs of district governor of the Florida (167th) district, and second vice-president of Rotary International. Guernsey is a member of the Rotary in his hometown, Jacksonville.

The Riviera carried a story last week saying that the meeting was to take place last Friday. We regret the error.

Police Inspect 1,116 Automobiles

To date 1,116 cars have been inspected in the police department's annual car inspection, now under way. Lt. Floyd Brasher expects that more than 6,000 automobiles will have been tested.

Last year's record was 6,714 cars. If the present rate of inspections continues, this year's record will go well over that mark.

Two Fined On Traffic Counts Here

Failing to halt at stop signs and the inability of drivers to keep control of their cars were blamed this week by Gables police for the recent spurge of automotive accidents.

Eldridge Fuller, of 1524 Avenue Garcia, was fined \$10 and costs for not stopping at an indicated point and causing an accident, while charges of speeding cost Carl H. Saak, 26, of 1797 N.W. 21st Terr., an identical fine.

Four other cases are pending judicial decision. Those involved Jerry G. Tools, 22, 6280 N.W. 3rd St. and Vernon Scott, 19, of 6578 S.W. 39th St., charged with reckless driving leading to accidents. W. C. Canady, 28, of 1403 Ludlum Road, was arrested for operating a vehicle without a driver's license, and Wallace J. Bragg, 35, of 3310 S.W. 27th St., was released on a \$50 bond for exceeding the Gables speed limit and causing an accident.

NINE CAST ABSENTEE BALLOTS

Legion Poses Three Questions On Hospital

With a little more than a week of campaigning left before the April 8 election, Coral Gables' mayoralty and commission candidates worked swiftly this week, mustering their forces for a final wind-up drive prior to the balloting.

The candidates are slated for three public appearances next week, one of which is an election eve rally open to the general public.

On Tuesday, April 1, the candidates will present themselves at the meeting of the Coral Gables Kiwanis Club at the Country Club of Coral Gables and on Wednesday evening they will attend the meeting of Post 98, American Legion.

The pre-election rally, slated for 8 p.m. Monday, April 8 in the Elementary School Auditorium is also Legion sponsored, but all qualified voters have been invited to attend. All candidates will be present.

Army Officer Is Injured In Collision

An Army lieutenant suffered a dislocated shoulder Wednesday, when a car driven by John T. Hale, 22, of 1331 Avenue Astoria, struck his vehicle at the intersection of Madrid and Astoria.

Lt. H. A. Wood, 26, of 907 S.W. 80th Avenue, was treated for injuries at Pratt General Hospital. Hale was said to have proceeded across the intersection from the north on Madrid Street when the mishap occurred.

Wood's car was resting on its left side when police arrived. His car sustained damages to the right rear door, and left front fender, while the left front fender, bumper and grill of Hale's vehicle was smashed.

Country Club Plans Summer Theatre Group

A summer theater group organized to give a "summer of pleasure and fun for all" was announced this week by Country Club of Coral Gables manager Gordon N. Taylor, with a first meeting to be held tonight at 8 p.m. Junior and senior club members interested in any phase of theater work—acting, make-up, directing, scenery, props, costuming, or stage management—are urged to attend tonight's organizational meeting. "Popular demand" brought about plans, Taylor said, adding that it is hoped a show may be under way by the end of April.

The Time: Tuesday afternoon.
The Place: Coral Gables Garden Club Flower Show.
The Interrogator: Audrey Gelb.

The Question: Do you think that the "Home Garden Grown" type of chapeau as exhibited at the Garden Club Flower show will permanently replace the creations of designers such as Lily Dache?

MRS. M. B. GARRIS, 1822 Country Club Prado: "Yes, they will to a certain extent, because we women always like to wear flowers in our hats, and especially on special occasions. No artificial flower can reproduce the color and odor of fresh flowers."

MRS. HERMAN FEICK, 1223 Genoa: "The only objection is that most fresh flowers don't last very long. This

flower in my hat, however, called Seden, will last for a week without water, but it is an exception. If we could get the

flowers to last they would certainly be my preference."

MRS. GEORGE B. ARNOLD, 3319 Anderson Road: "The only trouble with fresh flower chapeau is that most of us don't have enough spare time to spend on making them. It took me about three or four hours to put this hat together, and I certainly couldn't spare that much time for every hat that I need."

MRS. PEIRRE JONES, 318 Avenue Mendoza: "I really think it would be grand to make a fresh flower hat for every occasion, and certainly less expensive than Lily Dache! A fresh flower hat made by hand shows more individualism and reflects your own personality more so than does one you buy."

MRS. JAMES AMMEN, 1251 Coral Way: "While these fresh flower hats were fun to make, it takes much less time and effort to buy one in the store. I spent three hours on mine and enjoyed making it, but I wouldn't have enough time to make all my own hats."

MRS. GEORGE M. CORRIGAN, 1257 Mariola Court: "Although I don't believe that fresh flower hats will replace the creations of our chapeau designers such as Lily Dache, I do think they will be a strong contender. For special occasions there is nothing lovelier than a fresh flower hat."

Town Hall Series Opens In Gables on Sunday

In response to the widespread interest shown by Gables for musical recitals and fine arts exhibits, a new Town Hall will be opened for community meetings beginning this Sunday at 4:30 p.m. in the Community Congregational Church on 3010 DeSoto Boulevard.

Speakers are being engaged and discussions of a question and answer type forum will highlight the inaugural meeting followed by a social hour for the purpose of affording neighbors of Coral Gables to become better acquainted. In this community enterprise it is the aim of Walter M. Van Nort, newly appointed director of Town Hall, to bring excellent programs featuring all types of personalities, speakers, and artists. Interest and attendance of the public will determine the quality of entertainment. Programs will be carefully prepared, according to Van Nort, with the present series of recitals by Miami University School of Music to be continued at the church every Wednesday evening. The first meeting will include a piano duet by Henry Gregor and Joseph Tarpley, head of the University of Miami School of Music. There will also be half an hour of chamber music by the University Trio composed of Mr. Gregor, piano; Robert Kistler, violin; Cora Belle Morgan, coloratura soprano. (Please Turn to Page 7)

F-o-o-r-e! There'll be golf balls flying your way, Mister Country Clubber, beginning March 31 when the ladies take over course for a three-day 54-hole golf tournament. Lucky stroker (no relation to LSMFT) of this tournament will receive a cup donated by Mrs. Frances Gold. It will take a low net score to claim this award. Other awards will be a half dozen golf balls (for low putt), donated by Mrs. Ann Randolph, and a mighty nice lookin' tan leather cased bridge set consisting of two decks of cards, a scoring pad, and a skinny, beautifully sharpened ill' pencil. This set will be awarded the low "grosser" and is donated by Umps Clark.

Yapping about golf—Mike Silvergilde carded an 104-20-84 in the 18-hole blind bogey last weekend. As for the ladies weekly tourney last Wednesday, Mrs. G. Hanscomb, guest, added one more golf ball to her collection by making a 97 gross score.

Sunday's the day for the club netters to show those Flamingoes that swatting balls is the real function of a tennis racquet. Matches between the club squad and the Flamingo Park netters of Miami Beach will be held on the club courts at 2 p.m.

Remember those seventeen-week bridge tournaments I told y'all about? Well, recently the first half of both the Monday and Thursday night duplicate tourneys ended. At present, the second half is in progress. If you're still around in eight weeks when the tournaments are completed, and if you'll remind me, I'll let you know what winners receive which trophies. For those of you who can't wait, however, it's my off-the-record speculation that Mrs. Annabel Wilson will be the recipient of the A-1 trophy.

Winners of the first half of the above-mentioned tourneys were Mrs. Annabel Wilson, top scorer in both Monday and Thursday night's duplicates, Paul Walker, runner-up in Monday night's duplicate, and Mrs. Thomas Tawes, runner-up in Thursday night's duplicate.

Seems as though that first in a series of six refresher bridge lectures, given by Sally Strahler, made quite a bit with the C.C.'s. But if I'd said I was gonna' lecture, 50 of you wouldn't have come out to hear me! At any rate, remember that those lectures (only four more) are held for you each Tuesday night at 8 and it's up to you.

1. A storm and sanitary sewer system for the business area.
2. A well-considered sidewalk, street and park program.
3. An off-street parking plan and program.
4. Extension of our water system in undeveloped areas on a basis that will encourage building.
5. Safeguarding of the health, safety and moral standards of our community.
6. Well-considered action as to Pratt General Hospital, with any plan by the city for its acquisition and disposition to be submitted to a referendum vote.
7. A complete survey and study of our zoning to determine whether some areas are zoned too low and others too high.
8. Encouragement of residential and commercial construction.
9. A recreational program for the benefit of our citizens and which will be an attraction for new residents and visitors.

IF SO, THEN REMEMBER:

There are some trying years ahead of us. It is going to take training and a lot of experience to lead Coral Gables toward a sound solution of the above, and other, questions. It is also going to take a man with broad legal experience and, in particular, a man who has specialized in municipal problems, a man who thoroughly understands the intricacies of taxation, of financing, of the relationship of a City to its County, State and Federal Government. For, whether you think so or not, every move of the County, the State and the Federal Government has a broad and lasting effect upon the welfare of each community and, in turn, every single one of its citizens. But, friends, training and experience alone are still not enough. The job of leading any community requires courage, foresight and the utter, complete will to carry that community forward. So

They dawn in faith and glow full-orbed in spiritual understanding... What is termed material sense can report only a mortal temporary sense of things, whereas spiritual sense can bear witness only to truth. Frances Hovey Bergh, organist, will play "The Brooklet," by Gounod, "Prayer," by Guilman and "Allegretto" by Merkel. Junior, senior and adult classes of the Church School meet at 9:45 a.m. The beginners and primary classes at 11.

Country Club Christian

"The Fifth Kingdom," the concluding message of the "Destiny of Our People" series will be delivered by the pastor, The Rev. Harvey John Fritsch, at the 11 o'clock morning worship service of the Country Club Christian Church, 1009 East Ponce de Leon Blvd., Coral Gables.

"While Daniel in his visions saw the four world empires of history, he saw beyond them another—the Fifth Universal Empire. At the close of the Gentile rule he saw the stone cut out of the mountain striking the image on its toes and grinding it to powder and then arose the Divine Kingdom, set up by the 'God of Heaven' never to be destroyed. The four kingdoms came forth, became mighty and then one after the other perished. But the Fifth Kingdom is enduring, and will endure. Since its rise to World supremacy

it has been attacked many times. The Spanish Armada tried and failed; Germany, under the Kaiser and under Hitler, tried and failed; Japan with its Tojo; Italy with its Mussolini tried and failed; and it appears now that Russia and its Stalin are contemplating a similar venture. It too, shall fail. This then, under God, has been our destiny. Responding to the call of the Gospel from the lips of the disciples our people have been elevated to a position held by no other people since time began. Surely God is good and worthy to be praised," observes the Rev. Mr. Fritsch.

Holy Communion will be ob-

served. The choir will sing "Calvary" for the anthem of the morning. Bible School at 10 a.m.; Christian Endeavor meets at 6:45 p.m.

Episcopal

Services in St. Philip's Church next Sunday, Palm Sunday, will be a celebration of the Holy Communion at 8 a.m. Church School at 9 a.m. Morning prayer at 11, with sermon by the rector, Dr. Christopher Philip Sparling, subject "Insincerity." This is the last in a series of sermons on "Enemies to Peace and Happiness." The anthem "Ride On! Ride On!" (Please turn to Page Eight)

NOTICE!

DEADLINE FOR FILING HOMESTEAD, WIDOWS' AND DISABLED VETERANS

TAX EXEMPTIONS EXPIRES MARCH 31ST

TO THE CITIZENS OF CORAL GABLES:

Qualified citizens who have not yet filed applications for homestead, widows' and disabled veterans' tax exemptions are urged to do so before April 1st.

While deadline for filing is March 31, those eligible are asked to file immediately, in order to offset a last-minute rush which would tax the facilities of this office.

Reminder notices were sent to both widows and disabled veterans prior to January 1 but to date only about 70 per cent have complied. Both widows and disabled veterans are entitled to a \$500 exemption on real property providing proper application is filed. County and state applications must be filed separately with County Assessor Newt Lummus for the above.

Homestead exemptions must be filed with the COUNTY ASSESSOR. It is not necessary to file with City of Coral Gables. To date only 50% of qualified Gables' residents have filed for homestead exemption.

BUSINESS and PERSONAL PROPERTY TAX for the city must be in before April 1st, 1947.

Citizens are also reminded of the "Citizens statutory exemption" whereby all citizens of the state, owning personal property, but not real estate are entitled to a \$500 value exemption. This applies to both city, and state and county personal property taxes. Returns must be filed each year at both city hall and the Dade County Courthouse prior to April 1.

Holy Week

Next Monday is the beginning of Holy Week. It is a period during which the entire Christian World looks again to the principles of Christ for a solution to the world's problems which can mean a re-birth and a better world to come.

This period, which leads up to the glorious observance of Easter, is observed by special services in all churches to remind us again of the Christ who suffered and died for mankind.

Coral Gables churches, both Protestant and Catholic, will mark the Holy Week period with special services. Plan now to attend them at some church.

This is a period when the world sorely needs a rededication to those principles which may lead us out of the sorry situation in which we find ourselves today.

Why Not?

It can, or at least ought, to happen here, according to a "disgusted resident," who wrote this week to the Riviera enclosing a Wesleyville, Pa., press clipping, showing what Pennsylvania police are doing to over-exuberant, under-attitude amateur fliers.

The clipping, explaining that a student flier with "hot pilot" ambitions had skimmed rooftops recently in an effort to thrill residents and demonstrate his skill at the same time, said that the over-enthusiastic youth had been remanded to jail for 30 days in lieu of \$200 fine by an unenthusiastic judge.

"This is what should happen to fliers here in Coral Gables who make it impossible to even hear our radios," said the letter. "There has been a lot of talk about improving this condition, but it seems to stop right there. Why not place a good fine on these pilots instead of jail?" the writer concluded.

Well, why not?
You can push a car—that's a dictatorship. You can pull it—that's incentive. Or you can fill the tank with a new spirit and it goes by itself.

OUR TOWN

No Man's Land

By Jim Moore

Hugh B. Richardson, spokesman for a lot of folks out in "No Man's Land" who want to become Gableites, is an industrious individual. Maybe it's the fact that he lives so close to the Gables, but still not in it, that inspires him. Nevertheless, he's leaving no stone unturned in his efforts to bring about a Gables annexation of the county area that juts into the city south of the Trail, bounded on the west by Cortez Street and on the east by Salzedo Street. Its southern boundary is Avenue Majorca.

Since he appeared before the city commission last Tuesday to ask the commissioners if they would consider taking in his section, he has dug up quite a few interesting facts.

To me, one of the most interesting is Resolution No. 19820, introduced by Miami Commissioner Fred Hosea and passed by that city commission on February 19. The resolution "authorizes and instructs the city attorney to prepare and have introduced at the next session of the legislature in April, a bill enlarging and extending the limits of the city of Miami as shown by a map showing the proposed extensions now on file in the city clerk's office."

Said map shows in a brilliant green the proposed areas and on it is "No Man's Land." That area, however, had an "X" drawn through it, and the Miami city engineer's office states that someone changed his mind before the commission meeting and ordered it stricken. No reason is given.

At any rate, it does indicate that Miami is interested in the area, and can be expected to take action at any time. So if Coral Gables is interested, it behooves us to make up our minds what we want to do about it.

Richardson says that approximately eight out of ten people he has talked to over there, are in favor of annexation. They desire it mainly for fire and police protection, plus the added prestige they will gain from living in Coral Gables.

On the other side of the ledger is the fact that most of the houses are assessed under \$5,000 and would therefore pay no operating taxes; nor would they be liable for bonded indebtedness incurred before they were taken into the Gables. So outside of the one mill hurricane levy, it appears that they would pay very little into the city coffers other than garbage fees and utility taxes. Richardson says that a reassessment could be arranged so that the residents there could bear some of the operating expense; at least enough to justify their fire and police protection.

It Says Here

There's only ten more days until the city election and there seems to be less excitement than at a husking bee... Maybe the big community meeting on April 7 at the Elementary School auditorium will help stir up a little fun... Come and bring the family... Ask the candidates anything you want to know... That's why they're going to be there... We imagine that they'll feel something like the African Dodger in the carnival... That's the guy you throw baseballs at, you know... There's one city employee that's a little perplexed about the election. He got a letter from the city manager this week citing the city ordinance that makes it illegal for city employees to take an active part in campaigning for any candidate. The next day brought a letter from one of the candidates, asking for his active support.

It's a new baby gal that's causing that great big grin on Tommy Miller's face these days. The little newcomer was born in the Presbyterian Hospital in Chicago on Monday night, and a lot of the members of the Country Club, where Tommy is chief mixologist, stood by and helped him pace the floor. When the word came, via long distance, cigars were passed, drinks were on the house, and the gang joined in singing "Congratulations to You." A telegram was also dispatched to the new Miss Miller.

Dr. Sid Casell, the chiroprapist, is bringing these days over the new nickname

make an assessment survey of the area to determine just what could be expected in the way of tax return should the annexation take place. City Manager Mellwain and City Attorney Ted Semple are also on the "committee" to investigate the proposal.

One thing is certain, two referendums should be held to determine the people's wishes in the matter. Gables citizens should express their opinion in one balloting while the residents of "No Man's Land" should be polled in another. The annexation should take place only if BOTH groups separately agree to it.

That is the only way that Coral Gables should attempt to acquire additional territory, because some day we citizens might well face an annexation problem of our own.

If that day should come, we want to vote separately and not have our votes counted in the same pile as those of the citizens of Miami.

friends have adopted for him. They call him "Tootsie" because of his profession. We'd cringe, too, Sid... Mrs. A. Nyles Whyte called to reprimand us this week. Seems as though she bought a subscription to The Riviera for her husband's birthday and then the circulation department addressed it to her. The error is being rectified... If you want to be sparked with enthusiasm about the coming Fiesta of the Americas which starts April 17, talk to Rees Marshall. A member of the executive committee, Rees is doing a swell job of plugging for the event, which will be well worth seeing.

Dora Thomas is still being ribbed about the trick Skinny Lange pulled on her the other day. Skinny phoned her and said a friend of his was in town and would Dora have a date with him. Dora pleasantly accepted, only to have Lange show up at date time with a 60-pound midge! She was game, though, and went through with it.

The Pratt Hospital paper carried a picture of a pin-up gal this week with the caption "Warning! Soft Shoulders! Dangerous Curves!"... Pete Peagram, the police officer, may have some news soon about a song for which he wrote the lyrics... Jim Hawkins tells us that he's going to take a vacation from adjutanting over at the local Legion Post, soon... "Jeep" Wallace had his Packard painted and it really looks smooth... The Tom Pooles also painted their station wagon "Weedylawn"... Which reminds us that Worth Gruelle named his station wagon "The Reluctant Wagon"... Lil Archer invited us to have a drink with her over at the Country Club the other evening but we were already late for a meeting. Maybe she'll give us a rain check.

NOTES ON THE CANDIDATES: George Newhard tells us he's making a personal call at every voter's home... Dave Hendrick is doing a lot of the same thing... Paul Brinson is readying a new piece of campaign literature, slated for the presses soon... Keith Phillip's campaign headquarters on Coral Way is a beehive of activity... Gene Hunter and Walter Wigan are doing some heavy stumping for Andy Healy... Let's see, guess that gets a mention for all of 'em... The only real way to tell how this election is going to come out is to look in the backs of the voting machines after the polls close.

War Waged
While World leaders strive for a lasting peace, another war is being waged throughout the land against cancer. This war has been more costly in human lives than the last World War. It is astounding to learn that cancer killed 607,000 Americans between Pearl Harbor and V-J Day—more than twice as many as were slain by the Germans and Japs. This is just another reason why you should give generously to the fight against cancer. Mail your check to American Cancer Society, 936 Ingraham Building.

BUYING A HOME is an adventure in good living. Not many people can buy and discard homes as they would hats, so great care should be exercised in the process. This is especially true at present when there is relatively little choice.

For those who thrill to the possibility for joyous semi-outdoor living in this favored climate, we offer a truly delightful new rambling style, one-floor home with a roomy patio and loggia. Doll it up to the limit with rich, colorful furnishings in Mexican motif, and you will have a show place.

The floor plan is good, with two bedrooms and bath in one part, and master bedroom and bath in a separate wing. The grounds are adequate and nicely landscaped. The location is exceptional—convenient to transportation, Venetian Pool and Catholic Church and School.

Present owner requires more room and will sell for approximately today's replacement cost.

HELPING FLORIDA GROW!
GROWING WITH FLORIDA...

One way of expressing our appreciation for the privilege of "growing up" with Florida is to do our utmost in helping that growth.

At Riviera, Fla., we have built the finest power plant that modern engineering genius and technical skill can achieve. It is one of four great, new power plants—two completed, one under construction, one in final planning stages.

Out from these plants, over our far-flung interconnected system, will flow vital electric power—not only for the needs of today—but for Florida's continued growth and prosperity. They are symbols of our faith in the future of our State.

Stray Animals Increase As Owners Go North

Pets that gave their masters many moments of pleasure will be homeless in the Greater Miami area as winter visitors begin to return North.

An appeal to owners of pets is being made by Mrs. Charles Pusey, director of the SPCA in Miami. Residents who plan to leave the area and are unable to take their pets with them or find a home are asked to turn them in to the Humane Society.

A new home will be found for the pets by the society, located at 2101 N. W. 95th Street.

"We are picking up more and more stray animals every day," Mrs. Pusey stated. "Already we have so many lost dogs here that pens are full."

"Often people who have lost a pet forget to contact the Humane Society," she added. To date many dogs that had no tag or other identifying marks have been reunited with their owners who called the society.

"Dog owners would find it much easier to find their pets if they had them registered with the SPCA," Mrs. Pusey remarked. The society makes a charge of one dollar to cover the tag and cost of keeping a permanent record of the pet. In the event the pet is lost and the finder calls the Humane Society, contact is made immediately with the owner.

In World War II the Third United States Army slashed its way in combat farther in less time than any other army in history.

'U' Students Will Publish Humor Mag.

A new literary and humor magazine produced for the students will make its debut on the University of Miami campus on April 15th. The publication will reflect current collegiate spirit and will be edited by Howard Eisenberg, a University student. The only off-campus contribution appearing in the first issue will be an article written especially for the magazine by radio comedian Fred Allen. The magazine will contain certain humorous articles, campus snapshots, short stories, cartoons, jokes and other material submitted by students.

The magazine is to be called "Flotsam" which means, literally, goods that have drifted in from the sea, and since the material contained in it has drifted in from the imagination of the students, the title explains itself.

Heading the staff are editor Eisenberg, Managing Editor Robert Sweet, and Business Manager Sam Rabin.

"Ambitious writers may find the publication a means of getting into print now before stepping on to national publications after graduation," Eisenberg said. He invites writers and artists to submit material to the magazine. The only requirements are that the material be of professional caliber and appeal to college students. Space rates are to be paid.

Jane Austen Play Chosen By Ponceites

Something new in the way of senior plays will be in store for dramatic fans this year when Jane Austen's "Pride and Prejudice" is presented by the '47 senior class April 10 and 11 at the Coral Gables Elementary Auditorium.

With Betty Bellinger and Joan Browne as Mrs. Bennett, the frivolous, marriage-minded mother, Kathy Einfeldt as Elizabeth, the proud daughter, and Doug Phillips as Darcy, the eligible but prejudiced hero, the comedy will be presented in full costume.

This year's play will be directed by Mrs. Margerite Harvey Ponce, dramatics teacher, who is back after a year's absence.

Gables Girls Entered in Beach Contest

Two of Coral Gables' favorite daughters, blonde Betty Wagner and brunette Kay Dugger, have been entered in the Lincoln Road Association "most lovable queen in Florida" contest to be held at Miami Beach.

The shapely Youth Center entries, Betty with crowns as Sun-glasses Queen with Harold Lloyd and Life cover-girl queen, and Kay as High School and Amateur Model Queen, stand a chance to get in mighty close to winning the approximately \$1,000 worth of Lincoln Road clothing which will go to the queen-of-queens.

Only title holders and queens are eligible for entry in the contest, winners of which will go to New York to enter the national finals, and earn a chance at a trip to Paris as well.

Miss Wagner, who to date has received over 1,000 letters as a result of Life magazine publicity two weeks ago, drew a visit from two Duke University and two University of Missouri students who came all the way to Miami to get to meet the cover girl. Ed Taylor, son of Pittsburgh Pirate Coach Zack Taylor, who came to Miami to see his dad as well as win a bet with some buddies on getting a picture taken with Betty, stayed at the Riverside Methodist Rectory with his uncle and aunt during the visit.

Will Levy Tax Penalty April 1st

Real estate and property taxes for the year 1946 will become delinquent Tuesday, April 1. A provision in the state law calling for a penalty or interest to be charged against delinquent accounts will be enforced, according to Edwin B. Poorman, finance director for the city of Coral Gables.

As of March 28, both real and personal property taxes were collected to the amount of 90 per cent, Poorman said. Beginning April 1, real estate taxes which are in arrears will bear interest of 18 per cent per year. Land which still has unpaid taxes about May 28 will be sold at public auction. The minimum charge of 3 per cent is in effect between April 1 and the date of the tax sale.

Since there is no tax sale on personal property, the interest begins at the rate of 1 per cent per month, increasing as does the delinquency of the tax.

At midnight, January 1, 1945 all guns of the Third Army roared out for 20 minutes in a "New Year's Greeting" to German troops.

A check for \$250 to help provide lighting for the playing field at the Coral Gables Youth Center is presented by Junior Chamber of Commerce President DAVE HENDRICK to ED BECKMAN, athletic director. Looking on are BETTY WARD, program director; HARRY MORGEN-THALER, Center president and MRS. M. LEWIS HALL, secretary.

finish the job. Preliminary work in digging ditches and preparing for Midland volunteers has been carried out by Ed Beckman and a crew of Youth Center beavers.

The kids, whose money, earned on style shows, athletic matches, and other projects has gone into the Center Athletic fund for this very cause, have a right to feel very proud of their work and the work of their elders. The Junior Chamber of Commerce, whose members have labored toward night-lighting the field for a year now, and who this week contributed \$250 for the fund, have a right to feel proud, too.

League baseball begins next week on what community work has made the finest Youth Center softball field in the Greater Miami area.

Huddle Bar Sale Learned

Purchase of the Huddle Bar, 226 Avenue Alcazar, by Miss Mildred Schubert of Chicago, Ill. was announced this week.

In purchasing the establishment, Miss Schubert announced that future operating policy would stress fine foods, with the kitchen under the supervision of Jack Steinhilber, formerly chef at the Meridian Country Club in Chicago.

Miss Schubert also announced that she planned on making her home in Coral Gables.

Buy On Riviera Drive

New owners of the home at 3288 Riviera Drive are Mr. and Mrs. Louis Beck, formerly of Pittsburgh. Mr. Beck is one of the owners of the Benner Box Co., of Coral Gables. Their children are Judy, 8 years old and Jeffrey, one year. Mrs. Beck's sister, Mrs. Leonard Shapiro and two children, Paul and Joe are house guests, who will leave Monday for their Pittsburgh, Pa. home after a five weeks stay.

The Third Army captured the entire gold and currency reserve of the German Reich in a salt mine near Merkers, Germany, early in 1945.

Palm Beach Netters Top Salvadore Park

Salvadore Park's 12-year-old and younger tennis technicians went down to their first defeat this season in a six-match-to-two loss to Palm Beach last week. Lack of practice, result of a sudden era for softball play among the netters which caused them to throw tennis rackets to the winds, and the long 75-mile trip were blamed by Coach Leo Fullwood, Salvadore pro, for the defeat.

Junior T-men were back on the courts with a vengeance this week practicing to get in the shape necessary for match play. Coach Fullwood, who feels that four of his top players, Johnny Eulette, Bing Seibold, Al Harum, and Bobby May, are carrying too much weight, has worked out plans for running their avoidous down somewhat.

Henry Lyden suffered his first defeat in the match, but his pal, Bing Seibold, came through in the day's longest match to triumph. David Harum, playing the best match of his career, was defeated by a lad four years his senior, with L'il David burning over his forehead for many clean placements and playing well on back-hand and serve.

Breakfast Club Hears Roberts

The problem of "Which Comes First, the Chicken or the Egg?" was dressed up in a new style yesterday when Edward Roberts, a local broker, addressed the Breakfast Club at the La Sevilla restaurant. The chicken represented juvenile delinquency, while the egg made an appearance in the form of adult or parent delinquency.

Roberts was quick to point out that Coral Gables has gone to a lot of work and planning with the Youth Center to combat juvenile delinquency, but that they have done little in regard to the adult problem.

He did not answer the question, saying which was the progenitor of the other. However, Roberts suggested to the audience that it is necessary to supplement the work

Pankey Heard In Series Of Lectures

Dr. L. D. Pankey of Coral Gables, will address the Kentucky State Dental Society on Monday, according to an announcement today. While in Louisville he will go to the University of Louisville, where he will speak to the senior dental students. Recently Pankey lectured on the same subject to the St. Petersburg Dental Study Club and to the Palm Beach County Dental Society.

Dr. Pankey this week delivered a lecture on "Examinations, Diagnoses and Treatment Planning" at the University of Indiana, and at the Indianapolis Dental Society.

The Gables dentist has been invited to attend the West Coast Dental Study Club at Clearwater, Fla., on May 15. While on his tour Dr. Pankey attended the Hinman Dental Clinic in Atlanta.

Dr. Pankey was graduated from the University of Louisville in 1924. He has, to date, given innumerable lectures on practice management, and has taught numerous classes. He holds fellowships in the American and International Colleges of Dentists; is past president of the American Association of Dental Examiners, and has made major contributions to the entire field of dentistry through his lectures, courses and dental practice. His Gables office is at 138 Alhambra Circle.

Drive Set For April

Plans for the annual April fund-drive for the Dade county Field Army of the American Cancer Society were made during this week and Mrs. Clyde Epperson, commander, named chairmen for the various men's divisions. The 1947 quota is \$35,000.

With offices at 936 Ingraham building, the local unit carries on an educational campaign throughout the year, with a cancer information center to answer all questions and to have diagnosis made where necessary requires.

for the children with a program for the adults, in order for the problem to be as greatly reduced as the citizens of the community would like it to be.

NINE CAST ABSENTEE BALLOTS

(Continued from Page One)

nesday, candidates will be asked three specific questions on the Pratt Hospital situation. The queries, as outlined by the post's hospital committee, include:

1. "Are you in favor of the War Department continuing in its present status as an Army Hospital?"
2. "If the War Department gives up the hospital and the Veterans Administration does not take over the operation, as a Veterans' Hospital, are you in favor of the property being operated by the state or the university, as a medical school and hospital?"
3. "If this property is operated by the state or the university as a medical school and hospital, will it be exempt from taxes?"

"The above questions in reference to the hospital are of utmost interest to the veterans of this community and we would like to know definitely just how the several candidates feel about it," the committee added.

Absentee balloting for voters expecting to be absent from the city on election day opened Monday and will close on April 5. City Clerk E. B. Poorman reported yesterday that nine ballots had been cast since the period started.

A total of 4,322 persons are eligible to vote in the election.

Plan Scholarship In Memory of Dean Hjort

A living memorial to the late Dr. Elmer V. Hjort will be established in the form of a scholarship to finance the education of some Miami resident next fall, by the Faculty Women's Club of the University of Miami.

Dr. Hjort was Dean of the South Campus and professor of Chemistry until his death last fall. This scholarship fund, organized to perpetuate his memory, will be supported by voluntary contributions of students, faculty members and friends of the University. Mrs. R. A. Rasco, 2203 Alhambra Circle, Coral Gables, Mrs. Charles Tebeau, University Symphony office, Mrs. Margaret Basement, room 436, Main Campus, and Everett W. Liner, South Campus, have been named to accept subscriptions.

Because of Dean Hjort's sincere interest and continuous efforts to help students, the Woman's Club thinks this scholarship a most fitting memorial to him.

Announcement of the name of the recipient will be made by the scholarship committee sometime during the summer.

At the time of her announcement, Dade County's Red Cross drive for \$301,000 was slightly over 40 per cent attained, with but one division of the 22 reaching its individual quota.

H. H. Hyman, campaign chairman, expressed hope that other divisions would be able to report 100 per cent collected at the meeting today.

Cancer Drive Kickoff Set For Tuesday

Plans were complete today for the kickoff next Tuesday of the annual fund-raising campaign by the Dade County Field Army of the American Cancer Society, of which Mrs. Clyde A. Epperson is commander.

A ballyhoo wagon under supervision of Adolph Seerth will stage sing-songs and speech appeals in the business areas of county municipalities during the April campaign, during which the society hopes to exceed its quota of \$35,000. Dade countians last year contributed \$54,000, or more than one third of the total raised in the state.

Of the 2,400 Floridians who died of cancer during 1946, Mrs. Epperson pointed out, from 800 to 1,200 could have been saved by early diagnosis and proper treatment. The cancer society maintains a year-round information center at 936 Ingraham building and carries on a continuous educational campaign. Contributions may be mailed to American Cancer Society at that address.

Flower Arrangements Capture Hearts, Prizes in First Garden Club Show

By IRENE ERICKSON

The fragrance of orange blossoms, jonquils, and gardenias predominating over the more delicate scented blossoms would have intoxicated even the gods at the First Annual Flower Show of the Coral Gables Garden Club.

Attractive flower arrangements were not alone in gracing the Coral Gables Women's Club. On Monday night the formal wear of flowers was modeled by members of the Garden Club.

Hats which members had fashioned of garden flowers were modeled Tuesday afternoon. Made of green ligustrum leaves with gardenias at the back and one on the brim, Mrs. George Arnold's creation taken at first for a French model won first prize in the flower hat contest. Mrs. M. R. Ammen was awarded the third prize. Mrs. Garris, model of pink fringed pe-

La Posada, Unique Motor Hotel Adds Touch of Old Mexico To Gables Spanish Buildings

By BOBBY COLLIER

A touch of old Mexico added to a dash of fiery Spain has created one of the most unique motor hotels in the Miami area. A wide patio that stretches from 52d Avenue to 53d Avenue, is the center of a semi-circular expanse of 18 hotel rooms. The painted figures of two Mexican peons sitting on the front lawn east the impression of Mexico city on SW 8 St.

La Posada, the first hotel to be built on the Mexican plan in this area is strictly Mexican in origin and in reality. The name which means "The Inn" in Spanish was taken directly from Mexico where Mr. and Mrs. Lester F. Preu, the owners, spent many months.

While traveling through the entirety of the land south of the border, the Preus decided that a hotel on the Mexican design would set off the beauty of Miami even more than the hotels of the usual design. The original plan was drawn up by Mr. Preu, himself who is a builder of long standing in Miami. The inside decorations including the furnishings, paintings, and accessories were chosen by Mrs. Preu.

The lobby of the hotel is a small, informal room done in pecky cypress. A Mexican mat decorates the wall space above the main desk. On either side of the lobby are a dining room and a coffee shop which are open to outside patrons every day excluding Mondays. An open porch adjoins the coffee shop and is to be furnished with tables and chairs for comfortable eating on warm days.

Included in each room are double beds, a desk and two chairs. The beds and most of the other furniture are built into the walls and are in blond maple. Each of the headboards on the Hollywood beds are painted in a different color reminiscent of old Mexico.

An added feature of the hotel rooms is the fact that they all have two entrances. The rear entrance leads to a covered stall outside each room where the guest can park his car. The paintings on the walls were brought back from Guatemala and Mexico City. The ash trays, guards, and bed spreads were also relics of the old countries.

The patio which contains brightly painted tables and chairs can be seen from the bedrooms which open out onto it. Spacious lawns comprise the entire area.

The main lounge which is centered in the middle of the hotel rooms is furnished with deep lounge chairs, desks, tables, and a large old fashioned fireplace of

WHEN you buy Venetian Blinds

...you want MUCH MORE
THAN appearance!

Check these all-important points before ordering Venetian blinds for your home. If you will do so—carefully—there's no doubt you'll order Sistrunk!

- 1 **CORRECT MEASURING**—this is important—you'll find the Sistrunk representative is a real Venetian blind architect—really has the "know how" when it comes to precision measuring for lasting satisfaction!
- 2 **CORRECT MANUFACTURING**—this is important—for 16 years Sistrunk has been dealing in precision manufacturing, so absolutely necessary for lasting satisfaction!
- 3 **CORRECT INSTALLATION**—this is important—if you want to be really happy with your Venetian blinds over many years, Sistrunk installation men know their business—and they take a personal pride in making every installation one that gives lasting satisfaction!
- 4 **CORRECT SERVICE**—this is most important. Sistrunk doesn't turn his back on you once your blinds are installed. Every Sistrunk installation has fully in back of it a full year of complete service—without cost to you!

Again we say—when you're thinking about Venetian blinds—carefully and thoroughly check these all-important points. Then you are sure to call Sistrunk. The telephone number is 3-2171. Remember—there is no obligation in having our representative call.

If your Venetian Blinds have been in use for several years or more, you'll be interested in the Sistrunk reconditioning service. We remove the blinds, take them to the Sistrunk factory and make them just like new—at reasonable cost! Only takes about ten days for the job—that is right now—it may take longer if you delay calling as this Sistrunk service is becoming increasingly popular. Call us today—our courteous and efficient representative will call at your convenience and give you an estimate.

Factory superintendent of the Sistrunk organization is M. W. (Pat) Patillo, originally from Atlanta, Georgia. Pat knows his Venetian blinds, having been in the business nearly 12 years, the last seven with Sistrunk.

THE BROAD ROAD

Neil Gow was a whimsical
Scotch musician strongly addic-
ted to the whisky bottle. His chief
diversion was playing the violin
at country dances.

One night Neil contributed his
cheerful talents to a dance a few
miles distant from his village.
About mid-morning the day fol-
lowing he arrived back at his cot-
tage, much worse for wear.

"Well, Neil," observed a neigh-
bor, "I'm no surprised to see ye
so late getting home. It was a
long walk."

"Ah," replied Neil, "I didna
mind the length o' the road; it
was the uncommon breadth o' the
thing that was ma ruination!"

POW'FUL STUFF

An army chaplain, aboard a
troop train was in obvious dis-
tress and a colored corporal came
over to ask if there was any way
he could help him.

"I'll be all right soon," said the
chaplain. "They gave me three
shots this morning and it nearly
knocked me out."

"I sho understand," replied the
corporal. "Three shots of the stuff
they sells around here would
knock anybody out."

WRONG IMPRESSION

Old Lady (ot bell boy)—I tell
you I won't live in this room! I'm
not going to pay my good money
for a closet with a measly little
folding bed in it. If you think that
just because I'm from the coun-
try . . .

Bell Boy (cutting in wearily)—
Get in, lady, get in. This ain't your
room. This is the elevator.

KEEP THE SECRET

"Who was that ugly woman
you were out with last night?"

"Will you promise not to tell my
wife?"

"Oh, sure."

"Well, that was my wife."

IT'S THE CUSTOM

He—Do you really like wearing
an evening dress?

She—I feel nothing is more be-
coming to me.

He—Maybe so, but I think you
ought to dress.

How About Egg Plant?
Moron—I'd like a dime's worth
of bird seed.

Merchant—What kind of a bird
have you?

Moron—I don't have any yet. I
want to grow some.

'Little Joe' Captures Heart of Reporter In Trip Into the 'Wild Blue Yonder'

By JOYCE EDWARDS

Which would be your choice . . . a large four motor plane, or a smaller bug-like Ercoupe? The Ercoupe stole my heart away, but it came as a surprise!

I headed out to the Tamiami airport the other morning, and stopped in at Jack's Flying Service. The talk was naturally rather airy, not stopping with the usual patter about the air maneuvers of the birds and bees. With Jack around, that's not possible. The Ercoupe is his baby, and if you're not acquainted with all of its virtues (advantages to anyone else) he's waiting to tell them to you. I fell a victim of prey.

We left the office and headed for a plane which is named "Little Joe", after a "little" Joe of about six feet or better. We climbed into the plane from the wings on our respective sides, and were soon seated side by side.

The plane looked so small from the outside that I couldn't believe that there would be room inside for anyone with legs any longer than the usual toothpick or matchstick. But there was.

Jack slid the transparent roof closed, and pushed the starter, which is much the same as you see on any car with a dashboard starter. In fact Jack says anyone who can drive a car can fly an Ercoupe without a bit of trouble.

I sat there with a wrinkled brow, knowing that the take off, and taxi down the field would probably be as rough as trying to cross the Atlantic during a gale.

We scooted along, and were off the

ground before I even realized we were ready to move. True, the laugh was on me. I thought that only the larger heavy planes could take off so smoothly. The wind seemed strong compared to the little plane, but it failed to swerve from the course, and we managed much better than a larger craft carrying a co-pilot, pilot, navigator, and heaven knows how many other people who are supposed to team together to keep the ride from being too rough.

I took hold of the steering wheel which was in front of me. It went in and out and twisted about as the pilot worked the controls. The next thing I knew, we were moving along and Jack's hands were in his lap. I was flying the thing! I guess it shouldn't be called a thing, but when it was in my hands instead of his, I lost a little bit of my former confidence in the contraption.

It was easy as pie though, and I found that nosing the plane down and then pulling her up again was as much fun as a roller coaster, only I was doing the operating!

By this time I even thought the noise of the motor was an asset. You could take your mother-in-law up for a flight and not have to worry about listening to her. Let the motor roar and stay up there as long as you wanted. Truly in heaven!

As all good things must do, the excursion had to come to an end. We circled the field and came on in, the landing being as smooth as the first take off. With that I was completely sold. Eastern Air Line planes aren't even in the running. From now on, it's an Ercoupe for me.

Marc Abbott Now Offers Fruit by Wire

Marc-Abbott, Ltd. has been made a member of the Fruit Telegraphic Delivery Service, now observing its 10th anniversary, and looking forward to a vast post-war expansion in the fruit gift trade, it was announced today.

By means of the service, anyone is enabled to send a basket of fresh fruit to convalescents, as a holiday, anniversary, or bon voyage present, for condolence, and on many other occasions, to anyone in any other part of the United States and Canada within a few hours. The organization works on same principle as the Florists' Telegraph Delivery.

National headquarters of Fruit Telegraphic Delivery Service are at 2337 Boardwalk, Atlantic City, which serves as clearing house for the organization, publishes a periodical devoted to members' interests, and provides promotional material. Walter O. Melichar, president of the FTDS, anticipates a big upsurge in business now that war-time restrictions and shortages have passed.

He conceived and founded the service after a shipment of fruit he sent a friend spoiled enroute because of delays in transit.

"Why can't fruit be sent by telegraph, the same as flowers?" he asked himself.

His answer was the FTDS which today boasts 1500 members in the U.S. and Canada.

Gray Death

In just three minutes from now a person will die somewhere of cancer. Our Number One enemy, cancer, is no respecter of race, creed or religion. This specter of Gray Death is stalking the countryside today. No one is safe from cancer. It strikes on the average of one out of every two families. Because your family may be next, give generously by mailing your check to the American Cancer Society, 936 Ingraham building.

the time he makes his reservation. Although still in the embryonic stage, it also has been suggested that a special train, carrying only University students, leave Miami for New York on the last day of exams in May. This suggestion will materialize if enough students respond in favor of the plan.

Musical Show Planned By Ponce Honor Groups

By BETTY NEWMAN

Get out the old guitar, shine up your vaudeville act, tune up your pipes. Yes, the annual Cavallettes, Wheel, and Key Club musical is on its way. The date for the arrival of this long-awaited event is tentatively slated as May 15 and 16.

Try-outs will begin Monday in the Little Theater and all those who feel a bit nostalgic at the mention of a show are welcome to come and try their luck at securing a part. This year's theme is to be a carnival midway with colorful sideshows, glamorous beauties and fascinating magic acts. The Cavallettes will provide the glamorous beauties for the chorus numbers while the Key and Wheel Clubs will furnish barkers, scenery painters and master of ceremonies.

Although the theme is decided, there is still a crying need for script writers and backstage men. Even if you can't sing or dance, come on up to the Little Theater Monday afternoon and sign up to work on the musical.

Band Tries for District Festival To bring home a first division rating again this year is the goal of the Ponce band as they left today for the district festival to be held at Anderson Field in West Palm Beach.

Seventy-four students will represent Ponce and will occupy 43 rooms at the Biltmore Hotel in West Palm.

Judging from the sweet sounds that have floated around the band portable the past two months, I should judge that the music-makers should have no trouble bringing home their desired award. Good luck, all you band bugs!

Cook Carries Off Banner

For the fourth successive time, Mrs. Maudie Cook's senior home room has carried off the student council honor banner for having the most students on the honor roles. Brainy students, these. Looks like none of the other home rooms will have a chance for this banner until 206A passes on into the annals with the past students who now compose that select group known as "Alumni."

Although the day dawned bright and sunny, the feet of the 1947 senior class dragged slowly into the gym, clutching bread-boards and pencils in clammy hands. This was SP Day, Operation Brain-strain. Yes, March 26 brought dread and misery to the seniors who must spend the entire day in the gym sweating and straining over the annual ordeal of senior placement tests.

Every year, after being warned

finished in 1948, it will cost \$7-500,000 and will include a gym, cafeteria, home, etc., and manual training facilities. Our tax system is such that our structure is growing faster than the income, and there just isn't enough money." Looks like even the future classes of Ponceites will be doomed to assemblies in the gym.

Pension Plan Defects Scored by F. J. Neff

After working in the fire department of Coral Gables for 22 years, Floyd J. Neff, 1277 S. W. 10th Street, has only one complaint of a fireman's life.

"After a man becomes 55 years of age he is incapable of riding a fire truck, and looks forward to the time when he can retire. The pension system in the Gables is not what it should be. I would like to see a system worked out whereby a man could retire after 25 years' service, regardless of age, and on one-half to two-thirds of his salary," declared Mr. Neff.

Neff, who began his work on the Coral Gables fire department Dec. 15, 1928, has served on the staff Fifth of a longer than any other man except Members of Lt. John Q. Hollingsworth and Police Depts. Neff joined the force the same day. Thirteen men were hired that Dec. 15, bringing the department's membership to 21. Mr. Neff and Lt. Hollingsworth are the only ones remaining in the Gables of that number.

According to Mr. Neff, Coral Gables wasn't much when he first came here. There were just a few buildings on Ponce, and the construction of the Coral Gables Theater building had just begun. The Coral Gables Elementary School was in operation then, and the building that now houses the First National Bank had just been completed.

"Coral Gables was changing awfully fast in those days," asserted the fireman. "Buildings were going up overnight, but about 1928 the construction stopped dead, and in '32 the bottom dropped out."

Neff, born and reared in Cortland, N. Y., decided to come to Florida in 1924 when his family made a trip down. Living for the first year in Ft. Lauderdale, the former New Yorker visited Coral Gables and has stayed here ever since.

When the fire-fighter began work in the Gables he declared that there were four stations. The old Central station was at the corner of Alcazar and Salzedo, with three sub-stations. One of the sub-stations was Tahiti Beach.

"Our station was at the beach in the old days when it was owned by the Bowman hotel corporation, builders of the Biltmore hotel," Mr. Neff said. "Tahiti was a great place in those days, with dances every night and all types of recreation."

The veteran fireman has served in every phase of work on the fire department. In charge of the alarm system and the traffic lights for the last four years, he has driven the fire truck, acted as a lieutenant, and was assistant chief for a few years.

He declared that this present work is the best he has had since coming with the fire department. "I like the work for there is always something different, and there is never any time to sit around," reported the fireman. "When a man gets along in years, he likes to keep on the move. Another good feature about the work I am now doing is that it does not require night work, and I can be home with my wife at night."

Travel Aid Sought for University

Students at the University of Miami who live out of town may be able to make return reservations to all points north for their trips home at the end of this semester, right on campus.

The transportation office, headed by Jim Bousse, is trying to arrange with all major airlines and railroads to send one representative each, out to the University Campus on a date to be set next week, to enable students to make transportation reservations without having to stand on line in the crowded city travel offices.

If the present plan materializes, approximately three weeks after these representatives take reservations they will return to the campus to distribute the tickets and collect the money. No student will have to give any money at

Gables Groups
Planning for
Army Day

Military organizations of the
Coral Gables area will be well
represented in the activities of
this year's Army Week. The Mil-
itary Order of the World Wars,
the Coral Gables chapter of the
American Legion, Pratt General
Hospital, and the University of
Miami will participate in the ob-
servance of Army Day and of
Army Week.

Co-sponsors of the festivities
that will highlight the April 6-12
week is the Coral Gables branch
of the Military Orders of the
World Wars. In coordination with
the Miami chapter, they will be
in charge of the observance of
Army week in the Miami area. On
April 9, Wednesday, they will give
a luncheon along with sponsoring
a concert, parade, and speech.

Pratt General Hospital will have
an open house on Monday, April
7. Their WAC contingent will also
take part in the parade. The Uni-
versity of Miami Band and the
Veteran students (3000) will par-
ticipate in the week's arrange-
ments.

Invitations have been sent to
Generals, Groves and Doolittle,
Senators Pepper and Holland, and
to Rep. George Smathers.

Because of the fact that Easter
Sunday will fall on April 6, the
traditionally observed Army Day,
Monday, April 7 has been design-
ated as Army Day this year.
Churches in Coral Gables and Mi-
ami will work in conjunction with
the Army offering prayers and
special sermons in regard to the
observance. General Miller's pray-
er will be given in all local
Churches.

The Coral Gables theaters will
present Army Day shorts through-
out the week, and Army Day pre-
pared scripts will be used on the
radio stations. According to Lt.
General Oscar W. Griswold, Army
week should in no way be "cele-
brated", but it should be observed
to "honor American soldiers liv-
ing and dead." The theme this
year will be "A strong America
is a peaceful America."
