

Time: Tuesday afternoon.
Place: Merchants on Miracle
Mile and Ponce de Leon Blvd.
Interrogator: Audrey Gell.
The Photographer: Jim Oliver.

The Question: The merchants of the Miami area are divided this year on the question of Wednesday half-days versus a five-day week. Which do you prefer and why?

Miss Lee of Minna Lee on Miracle Mile: "Closing half-day Wednesday is a wonderful idea. In fact, if the town merchants decided to close on Saturday too, we would do the same. If all the merchants decided to close on Wednesday it would create bad feeling if we didn't close too. Then too, if all the merchants in the Miami area close on Wednesday, we, in the Gables, should have the same, because many of us have friends in the business and would like to be free the same days as they are."

Elmer Hornberger of Fred's Barber Shop on Ponce de Leon Boulevard: "We have been closing all Wednesdays in the past and expect to continue. I am in favor of closing all day on Wednesday, instead of just a half day. Business is slower in the summer and it gets so warm. Closing Wednesday breaks up the week. I hope all the merchants decide to close and also hope they consider closing all day on Wednesday."

Mrs. Ann Matthews of the Economy Laundry and Cleaners on Miracle Mile: "Closing half-day on Wednesday over the summer is all right with me. It really makes no difference either way. We aren't very busy over the summer, however. Mrs. Matthews is not a good idea for some merchants to close and other not to. The merchants should hand together and make a decision one way or another. It would be a good idea for us all to close. Economy usually closes half-day during the summer anyway."

Mrs. E. C. Segert of Segert's Gift Shop on Ponce de Leon Blvd.: "It was up to me we could close all day Wednesday. It breaks the monotony of the summer days, but it would be more desirable for everyone to close together. Several of us approach me about my feelings on this question, and many of them suggest we close all day on Wednesdays. The only drawback in my business is that I carry office supplies and the professional men run in all during the day. (Please turn to Page 11)

The re-organized board will meet on May 1 to elect its new president and other officers for the coming year. Retiring directors and new directors will be honored at the membership's annual dinner at 6:45 p.m., Friday, May 2.

John Temple Graves, noted public speaker, editorial columnist for the Birmingham Post and other newspapers, author of "The Fighting South" and authority on Southern economy, will address the meeting. Former congressman J. Mark Wilcox will be toastmaster.

Mayor W. Keith Phillips and immediate past Mayor Thomas C. Mayes will be honored with places at the speaker's table at the dinner. A dance in the club patio will follow the program. President C. B. Tuttle will give a five-minute resume of City and Chamber of Commerce progress during the past year.

Realty Exams To Be Held
The examining board of the City of Coral Gables will meet at 9 a. m. Wednesday at the City Hall for the purpose of holding an examination for brokers and salesmen desiring to operate a real estate business or become a real estate salesman within the city. Annexation Battle Is Carried on

'No Man's Land' Still Divided On Question

With the Coral Gables city commission declaring a hands-off policy on the question of annexation of the "No Man's Land" territory south of the Trail and west of Saizedo Street, opponents and proponents of the idea continued to muster their supporters today in an effort to reach a definite and final decision on the area's future.

Opponents of any attempt to annex the area announced yesterday that they had formed a "Dade County Home Owners Association" and were circulating a petition through the area gaining support for their cause. Leading the move were Anford Anderson, P. E. C. Fox, J. D. Girtman and Charles Kinsell.

Proponents Active
Bracey Richardson, spokesman for the pro-annexation group, reported that his supporters had also organized a meeting on Wednesday night to gain support for annexation of the southern portion of the area.

The city commission, meeting in special session on Tuesday evening, told delegations from both sides of the question that Coral Gables has no interest in the matter, one way or the other, and had merely agreed to listen to proposals originated by residents of the area.

The decision followed a stormy mass meeting at city hall on Monday evening when opponents of annexation shouted down the chairman and broke up the meeting with no definite decision being reached.

New Theatre Planned Here

Plans for a new theatre, to be erected in Coral Gables on the northwest corner of Tamiami Trail and Douglas Road, were revealed at the city commission meeting on Tuesday by Edward N. Claughton, developer.

Claughton, who appeared with A. B. Curry and Donald F. Peck, stated that he planned to construct a 945-seat, independent motion picture theatre, together with store buildings.

BLOOD BANK BOLSTERED BY FRATERNITIES

Kappa Alpha Epsilon and Pi Sigma Alpha, University of Miami fraternities, stepped up their current Gables blood bank drive this week with a donation of 30 pints of blood on Wednesday.

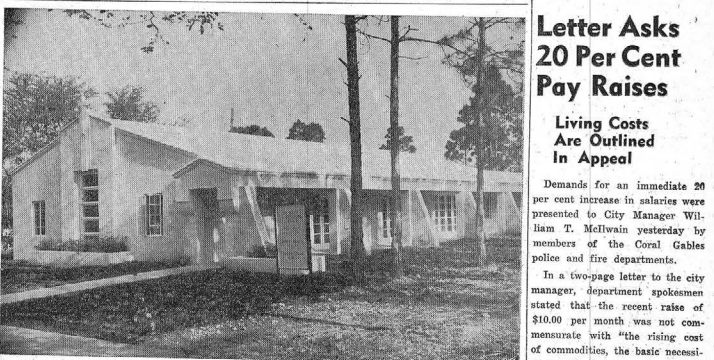

Led by Dr. Robert A. McVey, general chairman of the Coral Gables drive, the campaign moved into the final four weeks in which they hope to attain 1,000 pints of blood.

The Miami Junior Women's Club assisted by the Miami Women's Club anticipate over 50 pints in their drive which gets under way next Wednesday.

Dr. McVey declared Wednesday, "The drive got off to a slow start but with the assistance of various civic organizations, we are gaining momentum."

Acquiring of Golf Course Is Seen As Possibility

CITY EXPRESSES WILLINGNESS TO WORK WITH VETERANS GROUP

Intimation that the Veterans' Administration might welcome city acquisition of the Biltmore golf course, should the VA take over Pratt Hospital on June 30, brought a pledge of willingness to cooperate from the city commission this week.

Mayor W. Keith Phillips was instructed to offer the Veterans' Administration and the veterans' organizations of Dade County the aid of the city in working out any transaction that would prove beneficial.

Information Unofficial
Phillips said that he had heard unofficial comment that the VA would probably not be interested in acquiring the golf course property when and if it took over the hospital.

The commission also heard an offer from the Embury-Riddle company to operate Chapman Field as an airport for the city on a lease basis should the city decide to seek to acquire it when declared surplus. The company expressed willingness to spend from \$100,000 to \$150,000 in improvements, should the lease be granted.

No action was taken on the offer, the commission pointing out that it would await a decision of the Veterans' Administration which might take over the site on which to build a permanent veterans' hospital.

Newsreels Film Underwater Class At University

University of Miami Zoology sent eleven students to Rainbow Springs, near Dunnellon, Fla., this morning to participate in motion picture films being taken of underwater marine studies.

Faculty members accompanying the class are Dr. Charles Davis, Dr. Robert H. Williams, associate professor of botany and assistant director of the marine laboratory.

Dr. Williams stated that five newsreel companies are setting up equipment to film the underwater scenes. Diving helmets will be worn by the students as they identify plants, functions and structure, making observations of subterranean marine flora.

Pictures are to be released nationally, publicizing this section as the pioneering heart of marine study in this country.

Challenge Match Is Proposed by Salvatore Park
The Country Club of Coral Gables tennis team was challenged to a non-league match today by the Salvatore Park netters, as a result of a default decision on the match slated for two weeks ago.

Issued through Coach Leo Pulli, the Salvatore netters have offered to play the Country Club netters at any time on any court, with proceeds going to the Youth Center.

The Country Club team was given the decision over the Salvatore aggregation two weeks ago Sunday, when wet courts prevented the game from being played on the city courts and the Park team refused to transfer the match to the club courts.

The Salvatore team is slated to play Flamingo Park in a league match at 2 p.m. Sunday on the home courts. Highlighting the meet will be the singles game between Salvatore's George Porto, undefeated in league play and Harry Revere, the New England champion.

Christopher Sparling will conduct the service.

Mr. Mullen was born in Wrentham, Mass., and later lived in Boston until the time of his marriage she and her husband moved to Maryland, Md.

Letter Asks 20 Per Cent Pay Raises

Living Costs Are Outlined In Appeal

Demands for an immediate 20 per cent increase in salaries were presented to City Manager William T. McIlwain yesterday by members of the Coral Gables police and fire departments.

In a two-page letter to the city manager, department spokesmen stated that the recent raise of \$10.00 per month was not commensurate with "the rising cost of commodities, the basic necessities of life."

Truman Quoted
Quoting President Truman and Congresswoman Helen Gahagan Douglas, the letter pointed out that the cost of living has risen at least 70 per cent since last July 1.

Signed by Lt. F. P. Brasher, Sgt. C. W. Whalen, Jr. and Officer E. W. Tomlinson for the police department and Lt. T. E. Faison, Pts. P. T. Matheson and F. J. Neff for the fire department, the letter cited the department of public safety as being known as the best department of its kind in the Miami area.

They quoted the basic salaries of Miami policemen and firemen as \$254 monthly and Beach officers as \$230 a month.

"The last raise accorded to the Miami policemen and firemen was a 15 per cent increase while our Coral Gables men were less than five per cent," the letter said. "Miami is now asking for a 22 per cent increase—we are asking only 20. Their total increase will be 37 per cent, ours will be less than 25 per cent. This should be sufficient proof that we are not making an unreasonable demand or request, for even though the expenses of living in Coral Gables are slightly higher than in Miami, we are asking less than the Miami policemen."

Three Local Merchants Take Cue From Newburyport; Slash Prices

Newburyport, Mass. has nothing on Coral Gables, Florida as far as three local merchants are concerned.

The old New England seaport town made headlines throughout the nation this week when its merchants took a cue from President Truman and slashed prices 10 per cent in an attempt to deal the high cost of living a knock-out punch.

The story had hardly hit the front pages of the nation when three local firms contacted The Riviera-Times and bought space to announce similar action. Each firm act-

New Rotary President Outlines Club's Objectives

By MARY FRANK
Georgia's loss was Florida's gain in the case of J. Cleve Allen, newly elected president of the Coral Gables Rotary Club. Attracted to Miami as a winter visitor since 1930, Mr. Allen moved here in October of 1945, from Elberton, Georgia, following three years service in the Navy.

"I consider it quite an honor to be elected president of the Rotary Club," Allen said. "The Club will work under the aims and objects outlined by Rotary International, which embodies work in club service, vocational service, community service, and international service."

J. CLEVE ALLEN

Allen succeeds Dr. Otto J. Shepley, who will retire as president on July 1st. Directors of the new board include Dr. Shepley, Allen, Edward Keating, George B. Carter, Leland C. Shepard, Edward O. Shepard, Edward O. Henderson, James J. Helm, and Herbert W. MacDonald. The other club officers will be named by the new Board of Directors at its initial meeting, and soon thereafter committees will be appointed.

A Rotary member for 13 years, Mr. Allen now operates the Coral

Gables Furniture Company. He graduated from Georgia Military Academy and Georgia Tech, where he majored in business administration. While in college, he was active in Pi Kappa Phi, social fraternity; Alpha Kappa Psi, commercial fraternity; and was also a member of the inter-fraternity council.

The future of Coral Gables is unlimited, and business development should keep pace with, but not exceed, the residential growth, according to the new Rotary president.

Allen is planning to attend the International Convention in San Francisco to be held in June, and the District Convention in Daytona Beach to be held in April. Rotary International will hold its 1948 convention in Rio de Janeiro.

At present Allen is president of the Allen Granite Company, a director of the Georgia State Junior Chamber of Commerce, and is a past District Governor of the Georgia District of Rotary International; a former vice-presi-

PLANS EXPANSION

In announcing his opening, Rowe also announced plans for expansion in the future in a new building, adjoining, that is being constructed by R. Fulton Webb, local builder.

Rowe first came to Coral Gables in 1924, and is the son of the late Major John T. Rowe and Mrs. Rowe. He attended the Coral Gables Elementary school and Ponce de Leon High school.

During the war he served in the Army Air Force in England and was discharged in 1945 as a first sergeant.

At present Allen is president of the Georgia State Junior Chamber of Commerce, and is a past District Governor of the Georgia District of Rotary International; a former vice-presi-

NO MATTER WHAT "FAMILY TREE" YOUR "JOSEPHINE" SPRINGS FROM....

YOU CAN'T BEAT THE SERVICE YOU'LL GET FOR HER AT PARKS MOTORS!!

There's an old, old adage that goes: "Experience is the best teacher." And after twenty some years in the automotive repair and service business, we feel that we're really "experienced" — and that we're qualified to speak with authority on practically any phase of this business! And that goes for everything from CADILLACS TO JEEPS!

A lot of you car owners sort of get "name-itis" when you buy a car! You feel that because you've suddenly become the owner of a "Cadillac," a "Buick" or an "Oldsmobile" — that you can't get proper servicing and repairs anywhere but at a garage or agency that deals solely with that make car. BUT THAT'S WHERE YOU'RE WRONG, MISTER!

We say — AND WE MEAN IT! — that you can't take your "Josephine" ANYWHERE, no matter what her "name" — and get better or more satisfactory work than you'll find at PARKS MOTORS. Our staff of EXPERT SKILLED MECHANICS know the "ins and outs" of every "name" in the automotive field — and they are FULLY QUALIFIED, through years of experience, to give you FACTORY SATISFACTION, no matter what the job — and no matter what the name!

Country Club Christian

"Ye Are the Salt of the Earth" is the message of the Eleven O'clock Morning Worship Service at the Country Club Christian Church, 1009 E. Ponce de Leon Blvd., Coral Gables (Women's Club Building), by the Pastor, the Rev. Harvey John Frisch.

"Jesus had a simple, yet amazingly successful way of propounding great truths with common every-day symbols. It was easy

for everyone to understand Him, yet what He said has not been fully learned. He spoke of the lilies of the field, the sparrows of the air—the salt of the earth. Would God that each of us might come to know the lesson of trust in the lily and the sparrow and the lesson of active individuality that is in His reference to salt," observes the Rev. Mr. Frisch.

Holy Communion will be observed. Bible School meets at 10:00 A. M. with classes for all ages.

Christian Endeavor meets at 6:45 P. M. All young people are invited to attend these meetings and join in the spirited singing and the soul-inspiring devotionals.

The Church School, which be-

gins at 9:30, offers graded classes for all ages, with well-trained personnel.

The Christian Youth Fellowship will meet at 6:30. After a short business and devotional period, Mr. Messer will conduct the second in the series on "Current Religious Phrases". Don't Miss It!

One week from tonight the members of the Coral Gables Chamber of Commerce will gather around the festive board to look back on the accomplishments of the past year, to meet the newly elected officers and to hear plans for future projects.

When President Charles B. Tutan gives his resume of the Chamber's accomplishments during the past 12 months, the membership will have every right to swell with pride. Those accomplishments have been many. The men and women who have served on the various projects committees during the year have done an excellent job. Coral Gables has progressed and benefited by their actions.

The Chamber also achieved a coup in securing the services of John Temple Graves as the guest speaker. As a newspaperman and a lecturer Mr. Graves has a knowledge of the problems of the South that has held many an audience spellbound. Those who have heard him once, flock to hear him again.

The whole enjoyable evening will be climaxed by dancing in the moonlit patio of the Country Club of Coral Gables—a chance to renew old friendships, make new ones and chat informally about this town of ours.

This annual meeting is one thing you will not want to miss. Make your reservation today and be assured of a wonderful time and a memorable evening.

No Security

Do you feel secure within the confines of your home? Well, it's time to face the facts. You are not secure. Not as long as cancer, the scourge of mankind is stalking the country. It reaches its killing hand into thousands of homes annually, taking the lives of mothers, fathers, and, even little children. More children between the ages of five and 20 die of cancer every year than die of diphtheria, infantile paralysis, scarlet fever and whooping cough combined. Your contribution is needed for the fight against cancer. Mail your check to American Cancer Society, 836 Ingraham Building.

IN OUR MAIL

Editor, The Riviera-Times:
I just received my paper and am quite disgusted with the Sissy Talk interviews on the front page. I happen to be in business in this section, 4260 SW 8th Street, and certainly cannot see how strangers would know anything about our problems. In the first place I would like to meet the first person in this section who would be like to be taken into Coral Gables. We are satisfied and will fight for what we have.

Violet Adams
(Reader Adams has a perfect right to her opinion but should be informed that the idea for incorporating her area into the city limits of Coral Gables came from residents of that section. No Coral Gables group has instigated the plan nor invited the "No Man's Landers" to come into the community.)

HOME AND INCOME

AN APPEALING IDEA, in these uncertain days when security is so vitally interesting and important.

We have a really fine duplex with detached two car garage and upstairs efficiency. We believe it offers exceptional value. Owners' affairs have taken them to another State. Price about the same as a good 3 bedroom bungalow.

Witch Hunting

By Jim Moore

It's unfortunate that when a group of people get together to try to discuss something intelligently, there are always those among them who must resort to the old Salem practice of witch-hunting to win their side of the argument.

Such was the case on Monday and Tuesday nights when the residents of "No Man's Land" gathered in city hall to discuss whether or not they wanted to petition to become a part of Coral Gables.

Jim Moore

Some ugly things were said and some nasty implications were made, all of which were without the slightest vestige of foundation.

Bracey Richardson, who acted as spokesman for the minority group in favor of annexation, was accused as being a hireling and a tool of the Coral Gables commission. The city fathers were accused of being the founders of a deep and mysterious plot to annex the territory, which some of the residents there seem to think is a rich plum that would swell Gables coffers.

Nothing could be farther from the truth.

In the first place, the greater part of the territory is undesirable and I doubt whether the citizens of Coral Gables would ever vote to take it into the city limits. A large part of the land contains juke joints, a trailer park, a cemetery and below standard houses. Several of the "hot heads" who were so outspoken at the meetings demanded, "What is Coral Gables going to offer us to come into the city limits?" Actually the question should be reversed. What do they have to offer in return for the honor of being a part of Coral Gables?

As to the so-called "base motives" of Mr. Richardson and his neighbors; the accusation is ridiculous. Bracey Richardson is a responsible citizen. During the war he served as a lieutenant commander in Naval Intelligence and is still active in the intelligence reserve. He is a partner in the Hill Company of Florida. His reputation would probably stand the test far better than that of some of his accusers. He and his neighbors who appeared before the commission several weeks ago were prompted by sincere motives which they thought would improve the area in which they live.

So let's keep the record straight. Coral Gables does not have, nor never did have a desire to take in all or any part of No Man's Land. Coral Gables is not crowded and has plenty of land for future building. It does not need extra territory.

Any move to annex additional territory would call for two separate referendums, one in Coral Gables and one in the territory in question. So acquisition against the wishes of any group would be impossible.

The city commission was merely courteous enough to give audience to the plea of a group of residents in that area.

Those few who launched their witch hunt succeeded only in making themselves ridiculous.

President Truman's word that wage raises are justified if prices don't go down certainly got action. In fact labor got a raise right away—out of management.

High capital Democrats say that Henry Wallace is speaking in Europe as a private citizen. He may be a citizen, but he's sure not private.

A Newark, N.J., firm is offering a \$3850 brush. If your regular shave doesn't make you blue in the face, try that.

One thing a lot of home-hunting families have to be thankful for this year—no spring housecleaning.

St Says Here

For a long time we've been reading in the various papers about mental cruelty and somehow we could never get a very clear picture in our mind what it was all about. It seems to be used frequently in Hollywood as an excuse for matrimonial fiasco but the details are always vague. This week however, we got a very good example of it from Lucy Rutger, who with her husband Don, were recent week-end guests of the Bob Longs. It seems that several years ago the Rutgers had a house near the Clyde Beatty farm at Fort Lauderdale. One morning Lucy arose and looked out the window and saw five elephants, trunk to tail in the traditional manner, slowly marching by the house. "Don!" she cried, "Come quick and see the elephants!" Friend her husband arose, strode to the window, gazed out on the pachyderm parade for a moment and then turned to his wife with a perfectly straight face and said, "What elephants?" To this day, he has refused to admit that he saw any elephants and further contends that no such animals were quartered at the Clyde Beatty farm. "And they were ordinary grey elephants, not pink ones," Lucy wails miserably.

The difficulty of obtaining certain hard-to-get items, a favorite topic, was being engaged in by a group at a recent Gables gathering. "I had a heck of a time getting shipment on a birthday present I ordered for my wife," Leon LaSalle, the cleaning establishment operator, opined. "And what were you getting her?" asked the other guests. "Oh, a new shirt pressing machine," sez Leon—with a sly twinkle, of course.

John Moore, one of the participants from Ponce in the current music festival, was a soloist at the Lion's Club meeting on Wednesday. When he had finished a very difficult number on his cornet and the applause had died down, Willard Hubbell arose

and stated, "I live next door to John, and I have followed his progress on the cornet from the time he blew the first note. I must say that I was amply repaid by his performance here this afternoon."

Freddie Diesthorst, who was a familiar figure around the First National Bank as an assistant vice president, has connected himself with S. Duffield Hopkins in the investment business in the Douglas Entrance. Good luck on the new venture, Freddie. Hathaway Rinehart was in to see us this week to defend the Community Chest in its recent action concerning the Youth Center. Always willing to present both sides of any question, the Chest's version of the story is published in today's paper. Incidentally she informed us that husband Hollis has been under the weather with a bad ear. Here's hoping for a quick recovery. Memo to Gertrude Hardeman—Mr. Bielman wants to know what happened to his limes. Saw Jackie Pierce in the Country Club patio the other afternoon ardently studying her lines for the coming theatrical slated there. We're jealous of Bland Bowers, who recently air-conditioned his plant, even if it does seem cold to "Corky Corrigan and forces him to wear a coat. Our new Linotype machine arrived this week and we've had a hard time getting the paper out, what with all the operators trying to get it put together. John Balfe from the Redlands District News dropped in and wanted to know how much we'd charge him just to touch it. We let him fondle it for nothing, then recounted the parts. Congratulations to the dentists of Coral Gables, who have pledged \$5,600 to the new Children's Hospital. That's quite a goal for some of the rest of us to try to attain.

Twenty-five Are Pledged By National Honor Group

By BETTY NEWMAN

N.H.S. pledges lined the stage last week at the assembly when the honor society took in twenty-five new pledges to carry the torch into next year.

Sixteen juniors, who will comprise the first members of next year's chapter are Laurence Day, Eve Vance, Denis O'Donovan, Anne Topping, Jeanne Lewis, Betty Jo Miller, Alice Davidson, E. P. Ellis, Jeannette Waters, Sally Peacock, Jane Lewis, Charles Steers, Betty June Brown, Betty George, Joan Greene, and Joan Ditzberger.

Seniors who slipped in under the final wire are Doris Parrish, Paul Weier, Barbara Bowyer, Joan Browne, Tom Hale, Grace Jones, Elena Morales, Barbara Neel, Frances Olson.

More and More Pledges

So many different groups of pledges are in school now that their pledge duties overlap greatly. Quill and Scroll tapped four new pledges last week to swell the number of pledges.

New pledges for this "most exclusive" society are Charles Steers, Gerry Fossum, Kathy Einfield, John Good, Judy Hoffman, Katie Jones, Diana Rosch, Barbara Bowyer, Pauline March, Aaron Sertis, Frank Baker, Ed McGee, and Mildred Gager.

Initiation for these pledges has been set for May 15, at which time the total membership of the club will swell to twenty.

U. OF M. TRIO LAUDED

All-Brahms Concert Given Enthusiastic Praise by Critics

The all-Brahms program presented in the fifth and last concert by the University of Miami Trio of the Miami Chamber Music Society, Monday evening in the Coral Gables Congregational church was satisfying artistically and outstanding in tonal beauty, throughout.

The Trio, Henry Gregor, Robert Kistler and Gerard Haft, were definitely in rapport, the result either of like convictions in interpretation, or painstaking work together, or both. Gregor's piano work, from the delicate lilting arpeggios to the brilliant fortissimo chords, gave just the right piano support to Kistler's colorful violin phrasing; and as usual, Haft played with warmth and zest. The three instruments were fused harmoniously and at times dramatically to achieve fine effects in both the Trio in C major Op. 87 and the Trio in B major Op. 8.

Soloist Applauded

Sam Durrance, baritone soloist, contributed to the pleasure of the evening with five Brahms songs, in which his easy, free-flowing legato style was modulated from a delightful pianissimo to broader, deeper tonal values in an effortless way that was enjoyable to hear. The Wir Wanden and the

Minnelwed were especially appealing.

Gregor's accompaniments are the sort that singers prefer: sympathetic, elastic, never obtrusive, but sufficiently brilliant and full to assist in creating musical variations and color contrasts. It is to be hoped these three fine instrumentalists continue their

concerts, beginning early in the fall, offering to the discriminating a musical treat, and exposing the wealth of beauty to be found in Chamber music.—Ars Longa.

Action on Youth Center Is Explained by Chest

(Continued From Page One)

tions of the Taral Report, which recommended among other things that the Community Chest contribute approximately \$8,000. to cover total operating costs for a period of six months beginning March 1, 1946 and an additional \$8,000 for the next twelve month period making a total of \$16,000. over an eighteen month period, which, beginning March 1, 1946, would expire as of August 31, 1947. Against the proposed contribution from the Chest of \$16,000, as of the end of the past fiscal year, February 28, 1947, the Youth Center received from the Chest a total of \$10,091, leaving a balance due, therefore, of \$5,939 for the remaining six months of the eighteen month period.

Taral Cited

"Following the additional recommendations of the Taral Report, the Budget Committee was cognizant of the fact that the ultimate expectation for the Youth Center was to the effect that at the end of the eighteen month period, the Center would be so established as to become a basic part of the City's recreation program. To that end it was the recommendation of both the Budget Committee and the Board of Directors that the Chest continue financing, this agency only for the first six month period of the 1947-48 fiscal year, which expires as of August 31, 1947, at which time the financing of the agency by the Chest should be terminated in accordance with the intent of the Taral Report," Byster commented.

"In order that this entire procedure may be worked out to the complete understanding of all parties concerned, it was the recommendation of the Budget Committee and the Board that between now and August 31, 1947, representatives of the Chest meet with representatives of the Youth Center and officials of the City of Coral Gables for the purpose of discussing the position taken by the Chest and a thorough explanation of it.

"It is hoped if there are any questions resulting from your allocation, or if there are any questions as to future procedure, you will contact the Chest office in order that a complete understanding may be accomplished between both your agency and the Chest. You may be assured that the Chest is most anxious to cooperate in the complete fulfillment of your

program within the limits of the financial resources of the Chest, in order to assure continued service to the community and efficient management of your agency," he concluded.

A note to this desk from Mrs. William H. Ratterman of 912 Avenue Roderigo says that she and Mr. Ratterman are back once more in their beloved Coral Gables after several months on the West Coast. On arrival there Mrs. Ratterman was taken ill in Santa Barbara and delayed for some time, "but owing to good doctors and nursing, I am pretty much recovered and neither of us would exchange Florida for California", she writes.

The Golden Text is: "If in this life only we have hope in Christ, we are of all men most miserable. But now is Christ risen from the dead, and become the first fruits of them that sleep" (I Corinthians 15:19, 20).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "When this corruptible shall have put on incorruption, and this mortal shall have put on immortality, then shall be brought to pass the saying that is written, Death is swallowed up in victory" (I Corinthians 15:54).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "We must hold forever the consciousness of existence, and sooner or later, through Christ, Christian Science, we must master sin and death. The evidence of man's immortality will become more apparent, as material beliefs are given up and the immortal facts of being are admitted" (428:22).

Two of the little town's most respectable characters met in the early morning and became embroiled in an uproarious fracas, which awakened half the village and landed the two contenders in the calaboose. The chief witness against them when they came to trial was Uncle Wadd, a noid Negro handyman.

"Now, Uncle," said the prosecutor, "tell the court what conversation occurred between the two prisoners."

"Ah, dear jay rightfully remember," replied the old man, "capt dat each one was callin' de other what dey wuz."

The young playwright was complaining to the famous producer that his three-year-old son had torn up the manuscript of his newest play.

"Ah," mused the producer, "the child can read."

He placed a cigar box at his back door containing a note which stated:

"No gotta \$500 but I like your propash."

new book of verse that he hopes to have published. It's been tentatively titled, "Sunanna and the Elders" with some appropriate sub-titles... Charlie Tutan and Jimmie Henderson were both in Tallahassee this week... We hope they reminded "Chubby" Oelkers that he's still a Gableite and should act like one when the Bessaye Key bill comes up. We noticed that Lantoff and Gaultier both made a big noble statement about refusing to support the water conservation bill because it would take land away from some of the folks who live on the edge of the canal. Then how can they do an about face and take land away from Coral Gables over its vigorous protests? It doesn't add up, boys... Captain "Buck" Buchanan and his Pratt Prairier staff are readying our final edition of the hospital newspaper. Buck almost got transferred out of here on 40-minutes notice the other day but effected a delay in orders... We'll miss them around the plant. They're a bunch of swell guys... If you want to get the lowdown on the sponsor for the Chamber of Commerce dinner ask Obie Sutton, Jim Hoffman, Frank Holley or any of the other Kiwanians who heard him speak at a state convention. They say the guy is terrific. So if you haven't made your reservation, you'd better do so quick.

day for supplies, but if all the merchants close, I'd be glad to." Paul Stegeman of Stegeman The Jeweler on Ponce de Leon Blvd. said "If I had anything to say about making the decision I'd say let's close all day Wednesday. I expect to carry on as I have in past years, and my policy has been to close. However, if all the stores don't close, people that bring repair work to me would take it elsewhere, so I think it's better for all of us to close together. Closing half-day Wednesday would give us something to look forward to in the

middle of the week in the summer, when we don't have too much business." Jay Braunstein of The Tugger Men's Wear on Miracle Mile: "It would be a good idea to take off half a day Wednesday if all the other shops do the same. All the merchants should close as a unit. We have more to gain than to lose by closing during the hot summer. If we all decided to close together, then people would know they couldn't shop on Wednesday afternoons whereas if only a few of us close shoppers won't know who is closed and who is open when they start out to shop. It would be more confusing. We should all close together."

Summer WARNING!

Terrible weather's on its way! With it will come hot, stifling days... the kind that in the past brought still, breathless weather during which the only way you could get a bit of air was to go for a ride in your car.

Today, your home can be kept delightfully cool, day and night. It can be kept cool by the same method that cools you when you are motoring. That's cooling by air!

A General Engineering Home Ventilating System is the solution to your hot weather problem. Home-cooling fans to meet your specific requirements, designed and installed by skilled ventilating engineers, will give a complete air change in your home once a minute.

A call to General Engineering today will bring you many hours of home comfort this Summer!

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. On the right side, there is a dark binding strip with a decorative, wavy pattern. The overall tone is warm and vintage.
